The map illustrates the distribution of weather conditions across Greece. The majority of the country, particularly in the north and west, is marked with green circles, indicating 'Καλά' (Good) weather. A few locations in the central and southern parts of the country are marked with yellow circles, indicating 'Μεταβλητό' (Variable) weather. No red circles, indicating 'Κακή' (Bad) weather, are visible on this map. The map includes labels for major cities, regions, and bodies of water.
